

Fig 1: A totally realistic COVID-19 coronavirus, magnified.

COMMON SENSE PRECAUTIONS

As COVID-19 spreads through Philly, we're asking members to take a few extra precautions to slow spread and keep others healthy.

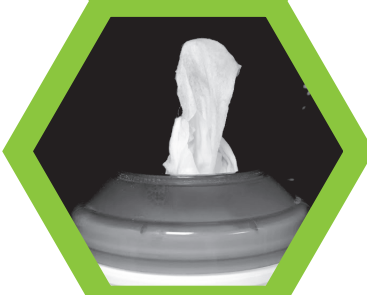

Thanks!

-Hive management

WASH YO HANDS

Please fully wash your hands with soap and water when you enter the space. And also after using the bathroom, but you were doing that already, right? *Right!?*

WIPE DOWN AREAS

After you've used an area, give the working surface and any buttons/controls a quick wipe-down.

STAY TUNED

Check the Slack and email for updates. We may have to postpone some classes and open houses if health officials recommend.
